This is a unique large development project on a plot of land of some 15338m². The plot is divided into two parts, of which 6527m² is building land with all necessary permits in place and 8811m² rural land planted with olive trees.

On the first plot there are now two completed villas, with two bedrooms, a bathroom, kitchen and living room, on terraced on plots of 500 m² and with a floor area of 90m², which still have to be finished internally. These two villas are ideal as holiday homes and the original plan was to build 10 to 11 similar houses on the plot for rental.

On the second rustic plot, the necessary licences can be obtained to continue the project to create a small-scale holiday park with catering facilities, such as a Bar/restaurant.

A truly unique opportunity for investment or to carry out these plans and fully develop the potential of the site. If you would like to arrange to view this property or have any further questions please contact us.
