Country House Terraced Habitable
- 509 m

Water: Possible Electricity: Mains
Telephone: Possible Internet: Possible
Swimming Pool: No

A terraced habitable 2 bedroom country house for modernisation, on a plot of 509m² to include a large garage, land and garden.

The house is habitable although in need of modernisation but has lots of possibilities. At the front of the house there is a marble tiled terrace with grape vines growing over it and a square piece of land at the front. From the terrace the front door opens into a good size hallway with a room either side. There is a large double bedroom on the right, and a large double bedroom on the left.

From the hallway straight ahead is a sitting room with plenty of additional room for table and chairs. On the left is another room that currently has no window. From the sitting room it opens into a large room at the back of the house that has a fireplace and plumbing for a sink. To the left is a cupboard, next to that is a downstairs shower room having a shower, WC and pedestal wash hand basin.

A few steps lead to a door where there is a small landing with stairs continuing up and to the left steps take you down to another room which has an oil jar standing in the corner that is included with the house.

Going upstairs to the first floor there is an large open room either side of the stairs, and another room at front of the house which runs the full length of the house.

Outside the marble terrace provides access to three other cortijos with a private right of way. There is access to a huge garage of 70m² behind the cortijo. Just around the corner a little down the road is a plot of land that is included in the price.
